Career Opportunity – Naval Architectural Engineer

Lengkeek Vessel Engineering Inc. is seeking an experienced Naval Architect Engineer for full time employment at our Dartmouth, Nova Scotia office. We are looking for a responsible and motivated Engineer with a degree from a Canadian Institution and experience in the Canadian marine industry to join our company.

LVE is an employee owned firm that values its people. We offer a professional, relaxed, and friendly working environment. Our employees get to tackle all aspects of the profession, and we strive to align our employees with tasks that they enjoy.

As a Naval Architect Engineer with our company you will get to enjoy a good mix of office work and site work, including management activities, project oversight, drawing review, specification preparation, modeling, structural analysis, stability analysis, propulsion analysis, problem solving, surveying, and quality inspections. Our projects are diverse and challenging, making the work interesting and enjoyable.

We offer competitive salaries, ownership opportunities, bonus opportunities, overtime opportunities, training, health and dental and disability benefits, pension plan contributions, and social activities. Our very low employee turnover rate speaks to our commitment to our employees and to the enjoyable environment in which they work.

If you are interested in being part of our crew please send your resume and transcripts to vicki@lengkeek.ca
